

COGNEX EASYBUILDER TRAINING

In-Sight™ Machine Vision Systems

The In-Sight™ EasyBuilder® Software does not require users to learn programming, enabling them to focus on what is most familiar- the part!

The EasyBuilder® interface walks you through the process of setting up your vision application step by step. It is great for novice users, the application is deployed and running in a very short time.

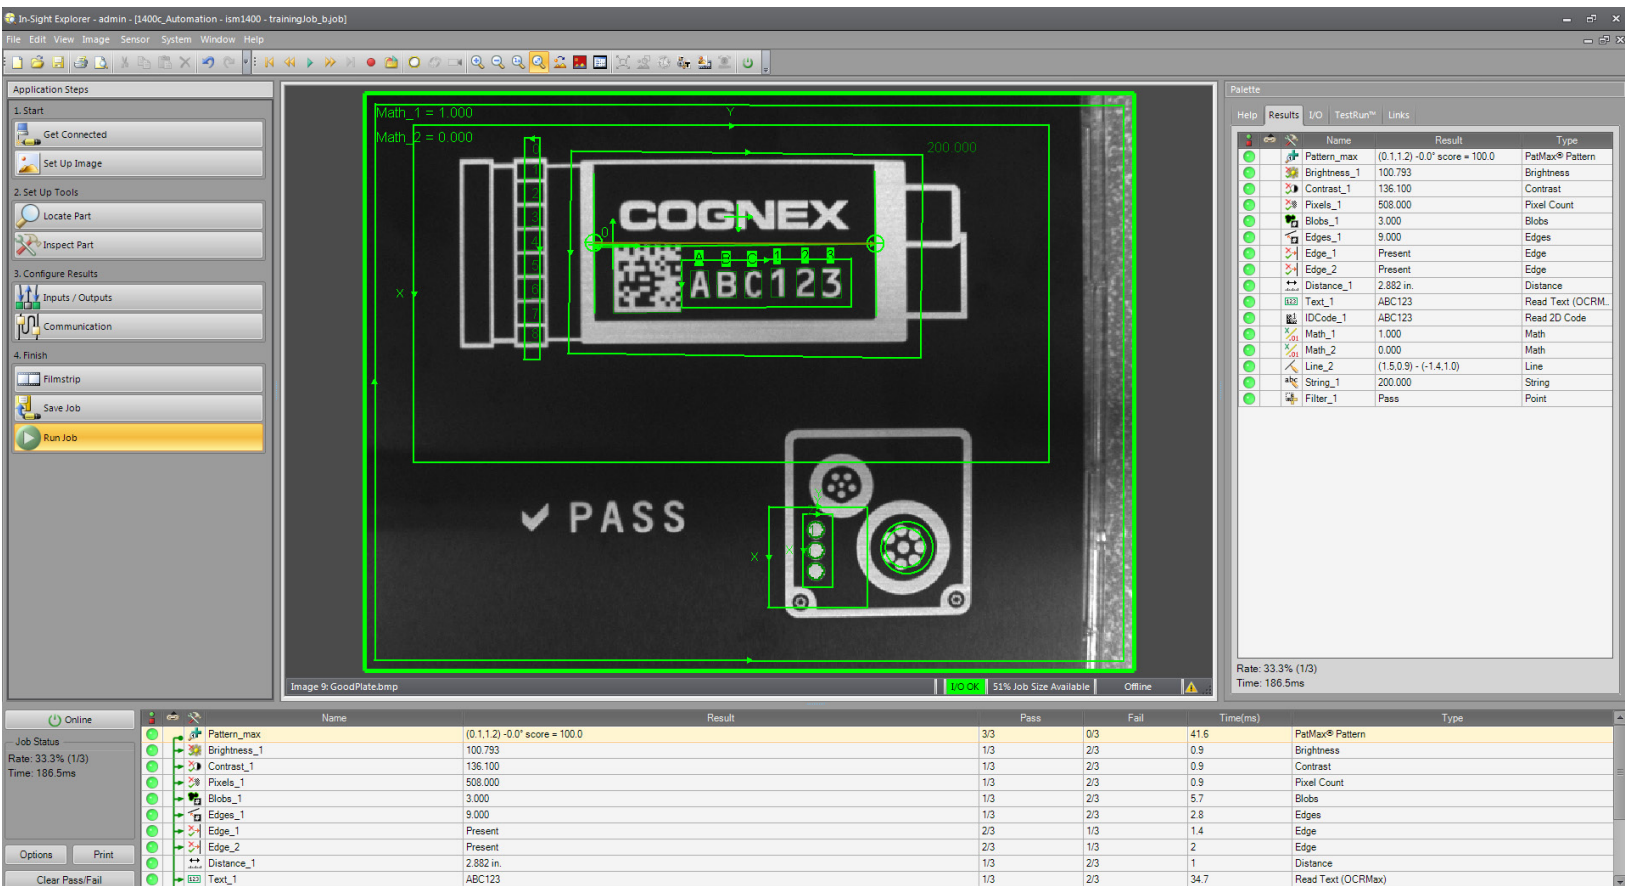

Cost: \$295.00

9:00 AM- 4:00 PM
Lunch is provided
